

# What can you do to protect your local environment?

## Save water

Take quicker showers and turn the tap off when you are not using it to help save valuable resources.

## Unplug items

Unplug items that you are not using. It reduces energy consumption and also saves your family money.

## Walk, don't drive

Ask your parents to walk you to school or nearby places instead of driving, to reduce the amount of gases from cars in the atmosphere.

## Reduce paper use

Be mindful of the amount of paper you are using. This helps to preserve trees and stop natural habitats becoming endangered.

## Recycle

Recycle items and cut down on what you throw away to conserve natural resources and reduce landfill.

## Grow food items

Ask if you can set up a fruit or vegetable patch at home. This helps reduce the pollution in farms.

## Reusable Items

Invest in reusable water bottles, straws, utensils and bags.

## Volunteer

Volunteer to do things like a litter pick or tree planting in your community.
